

Beneficiaries

Ticket to Work:

Services and opportunities to help beneficiaries work

Social Security provides beneficiaries with access to resources, real choices and a safety net to help you reach your goals and transition into work.

Make the choice that is right for you. We understand that there are barriers to work and are helping you overcome them through the Work Incentives. You have choices and can work full or part time as you transition and explore work options.

Access resources and tools to find the job that is right for you. We help you identify work options and access Employment Networks and vocational rehabilitation centers, dedicated to helping people with disabilities succeed in the workplace.

Stay in control of your benefit choices. Controlling benefits is important. That's why you can consider work options while keeping benefits until you are able to support yourself.

Achieve greater personal satisfaction. Helping you maximize your earning potential and attain greater self-sufficiency are key goals for the Work Incentives and Ticket to Work program. We will help you increase your self-confidence by working and gaining new skills while finding a work solution that works for you.

Take advantage of the safety net. Work Incentives makes it easy for you to get back on benefits when and if needed.

Explore your work potential. Learn more about Social Security's Work Incentives and the Ticket to Work Program.
